

Door Components

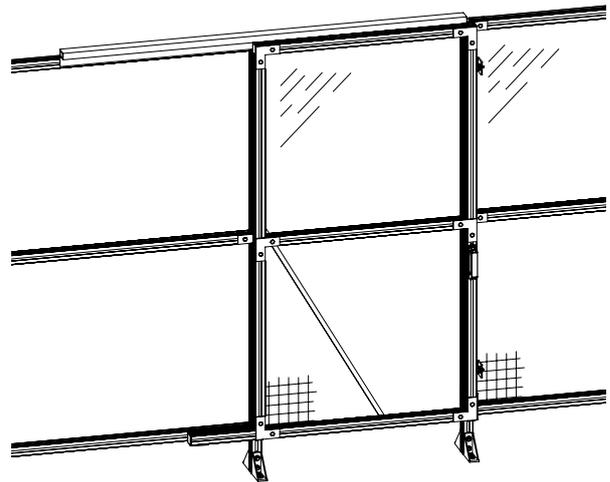

Door Components and Fittings

To mount conventional doors a hinge is available which permits an opening angle of 180°. For mounting a sliding door, guide rails and suspension wheels are utilised. Other sliding elements make it possible to build different types of hatches. Guide rollers, for wide and heavy doors, door closers, fittings for sensors/switches etc are also available.

Door Components

Hinge kit

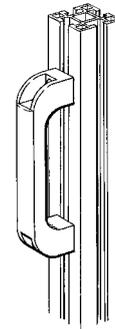

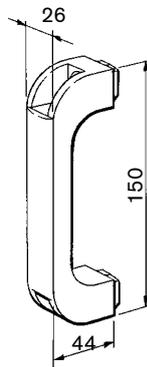

Designation: JSM D1A
 Article number: 40-033-15
 Preassembled with: Screw JSM S6A
 Nut JSM M6B
 Material: Zink Plated Steel
 Fixing Holes : c-c = 62 mm
 Order Unit: 2 pcs/box

Note! JSM D1A must not be used for fencing angle fitting because opening can exceed 20 mm.

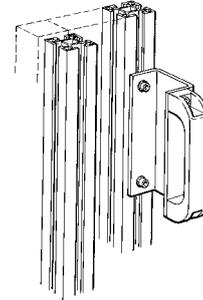

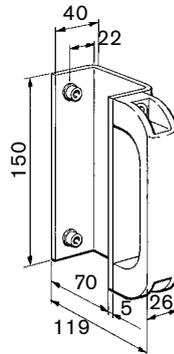

Handle

Designation: JSM D2
 Article number: 40-033-01
 Preassembled with: Screw JSM S8D
 Nut JSM M8B
 Material: Thermoplastic, black

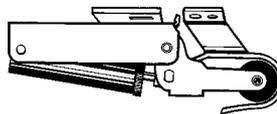

Designation: JSM D18
 Article number: 42-020-50
 Material: Thermoplastic, black
 Handle: Thermoplastic, black
 Fittings: Aluminum
 Preassembled with: Screws and Nuts

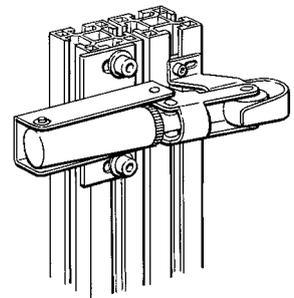

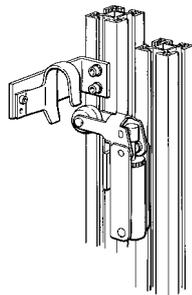

Door closer

Designation: JSM D3
 (conventional door)
 Material: Door closer - steel
 Bracket - Aluminum
 Article number: 40-033-02
 Preassembled with: Screws and Nuts

Designation: JSM D19 (sliding door)
 Article number: 42-020-56
 Material: Zink Plated Steel
 Preassembled with: Screws and Nuts

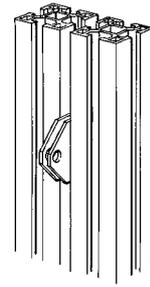

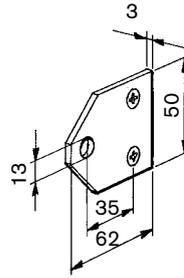

Door Components

Bracket for padlock

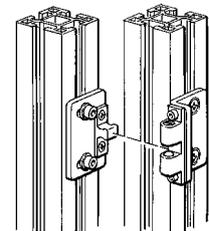

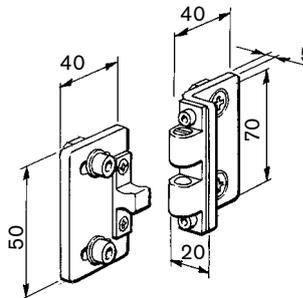

Designation: JSM D17 Bracket for padlock
 Article number: 40-020-22
 Material: Zink Plated Steel

Note! Two pieces are required for one complete unit.

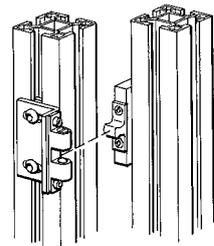

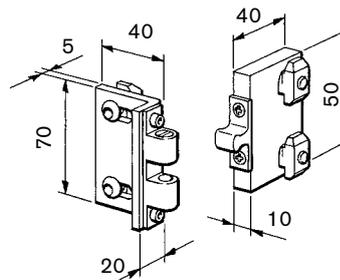

Ball Catch

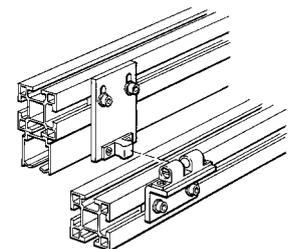

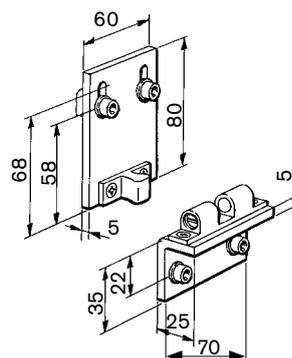

Designation: JSM D11B (conventional door)
 Article number: 40-033-41
 Preassembled with: Screws and Nuts
 Material: Aluminium
 Brackets: Aluminium
 Ball Catch: Nickel-plated brass

Designation: JSM D11C (sliding door)
 Article number: 40-033-42
 Preassembled with: Screws and Nuts
 Material: Aluminium
 Brackets: Aluminium
 Ball Catch: Nickel-plated brass

Designation: JSM D11D (folding door)
 Article number: 42-020-52
 Preassembled with: Screws and Nuts
 Material: Aluminium
 Brackets: Aluminium
 Ball Catch: Nickel-plated brass

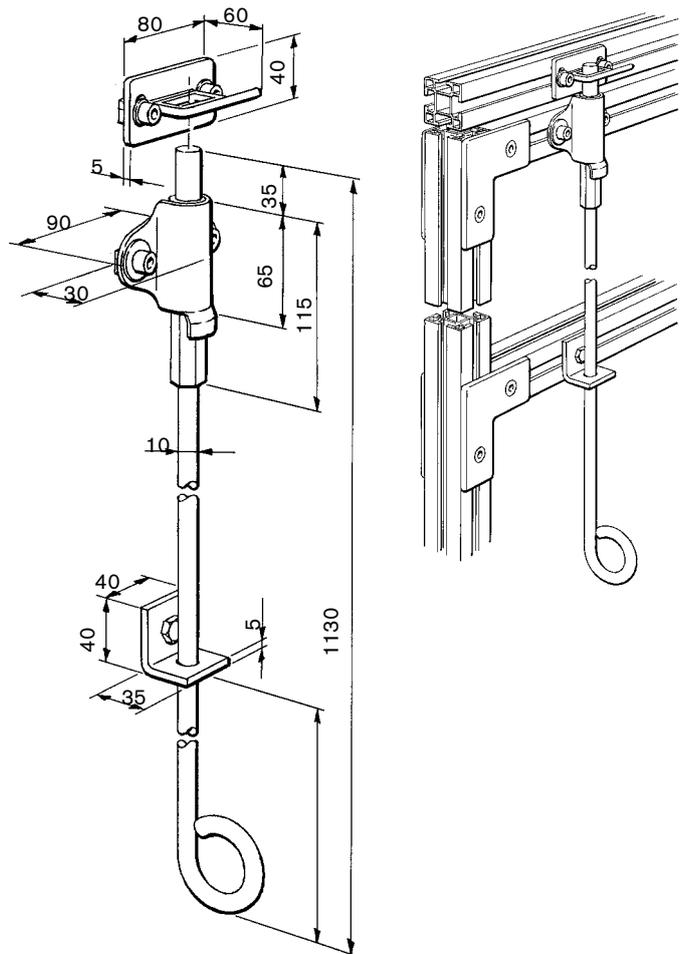

Door Components

Locking Bolts

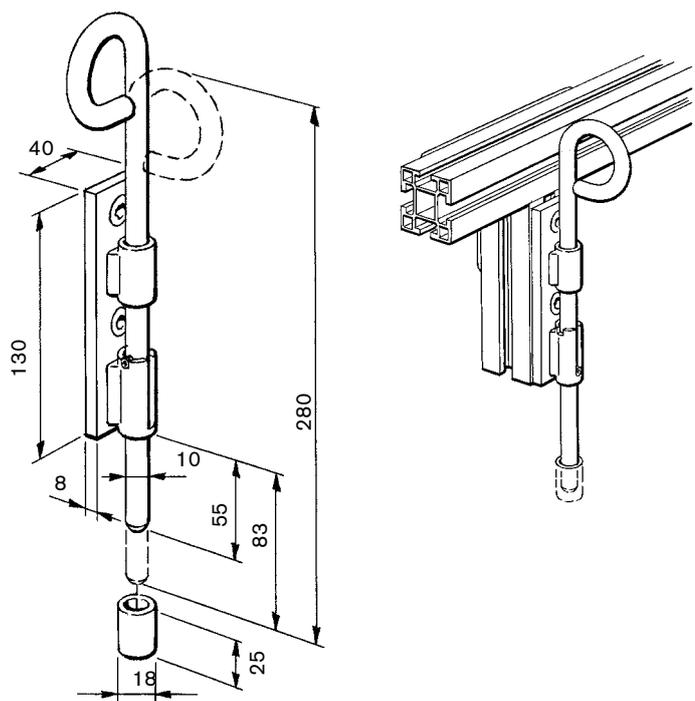

Upper Door bolt

Designation: JSM D10A
Article number: 40-033-21
Preassembled with: Screws and Nuts
Material
Brackets: Zink Plated Steel
Rod: Stainless steel

Lower Door bolt

Designation: JSM D10
Article number: 40-033-20
Preassembled with: Screws and Nuts
Material
Brackets: Zink Plated Steel
Rod: Stainless steel

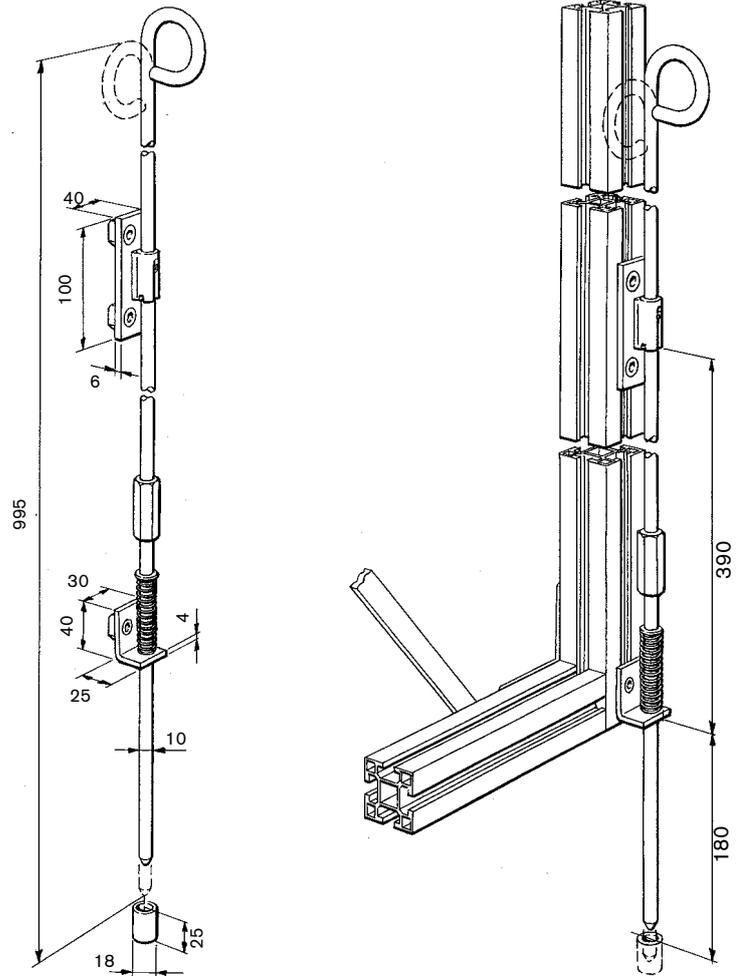

Door Components

Locking Bolts

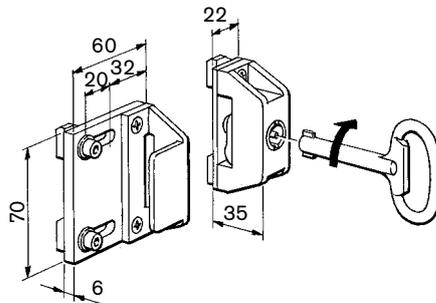

Lower Door bolt

Designation: JSM D10B
 Article number: 40-033-38
 Preassembled with: Screws and Nuts
 Material
 Brackets: Zink Plated Steel
 Rod: Stainless steel

Cam lock

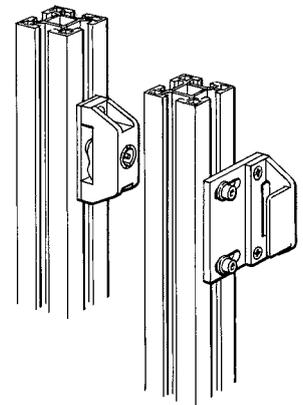

Designation: JSM D15
 Article number: 40-033-39
 Preassembled with: Screws and Nuts
 Material
 Brackets: Aluminium
 Lockunit: Polyamid black

Delivered without key.

Key to cam lock

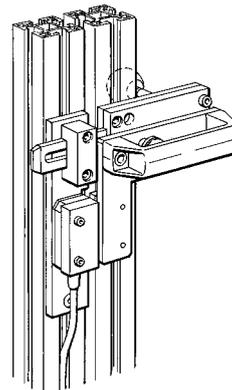

Designation: JSM D16 for cam lock JSM D15
 Article number: 40-033-44
 Material: Zinc, black

Sliding unit for Eden

Designation: JSM D20 (conventional door)
 Article number: 20-302-10
 Material: Steel, yellow

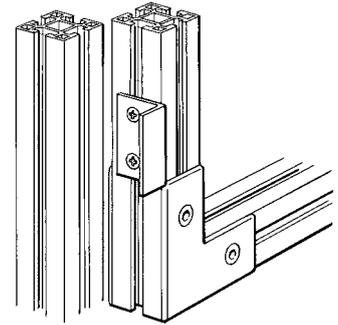

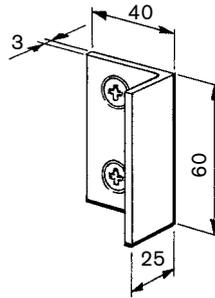

Delivered without Eden.

Door Components

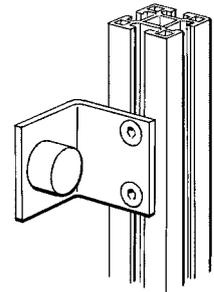

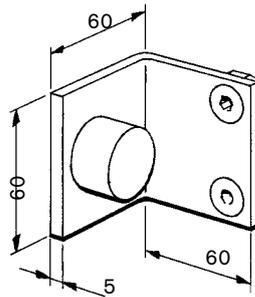

Door stop

Designation: JSM D13A
Article number: 40-033-26
Preassembled with: Screws and Nuts
Material: Natural anodized aluminium

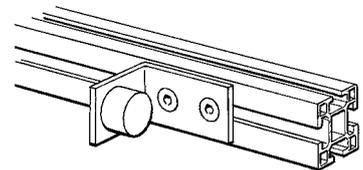

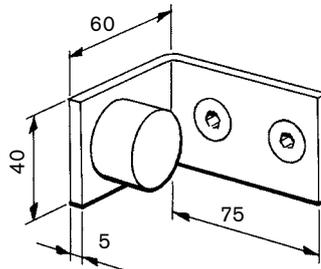

Designation: JSM D13
Article number: 40-033-25
Preassembled with: Screws, Nuts and vibration damper
Material: Zink Plated Steel

For mounting on vertical profiles.

Designation: JSM D13B
Article number: 40-033-27
Preassembled with: Screws, Nuts and vibration damper
Material: Zink Plated Steel

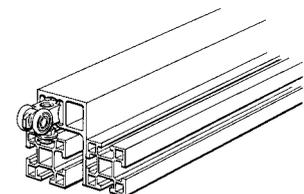

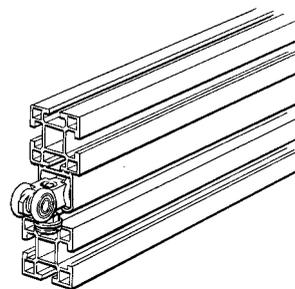

For mounting on horizontal profiles.

Suspension wheels

Designation: JSM D5
Article number: 40-033-04

For aluminium profile guide rails
JSM A3130B and JSM A56

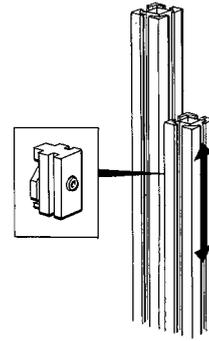

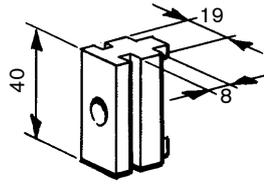

Door Components

Sliding elements

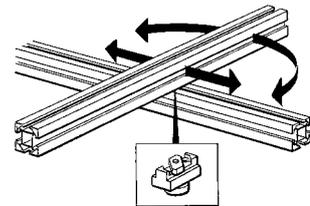

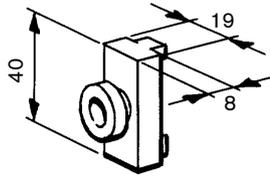

Sliding element, (rectangular)

Designation: JSM D6
 Article number: 40-033-05
 Preassembled with: Screw and Nut
 Material: Polyamid

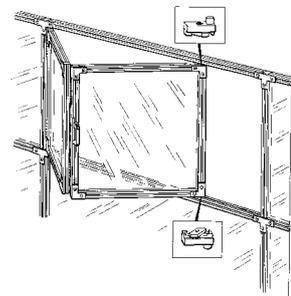

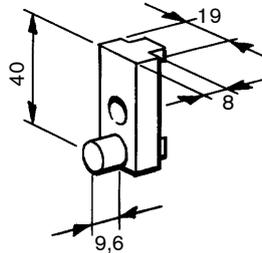

Sliding element, (round)

Designation: JSM D7
 Article number: 40-033-06
 Preassembled with: Screw and Nut
 Material: Polyamid

Sliding element, (guide)

Designation: JSM D8
 Article number: 40-033-07
 Preassembled with: Screw and Nut
 Material: Polyamid

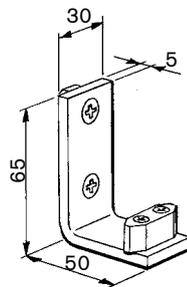

Guide Components for Sliding Door

Guide Bracket for Sliding Door

Designation: JSM D12
 Article number: 40-033-22
 Preassembled with: Screws and Nuts
 Material: Aluminium and PA6-6

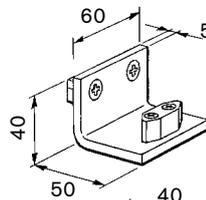

For mounting on vertical profiles.

Guide Bracket for Sliding Door

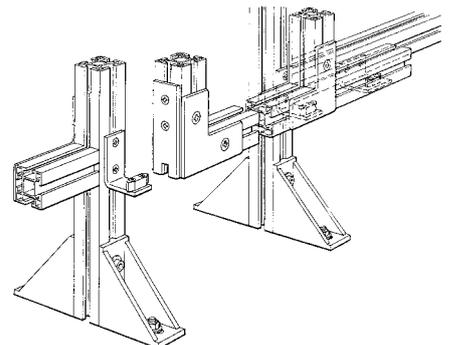

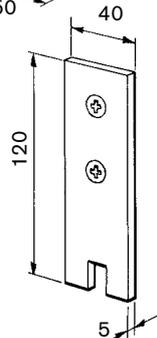

Designation: JSM D12A
 Article number: 40-033-23
 Preassembled with: Screws and Nuts
 Material: Aluminium and PA6-6

For mounting on horizontal profiles.

Bracket for Guide Pin

Designation: JSM D12B
 Preassembled with: Screws and Nuts
 Material: Aluminium

Door Components

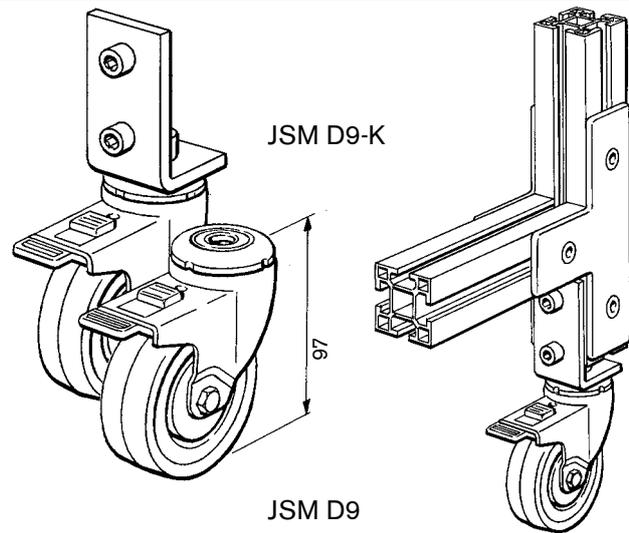

Guide roller

Guide roller for conventional door with locking mechanism

Designation: JSM D9
 JSM D9-K - preassembled with angle bracket

Article numbers: 40-033-08 (JSM D9)
 40-033-11 (JSM D9-K)

Diameter: 75 mm
 Max. load: 60 kg

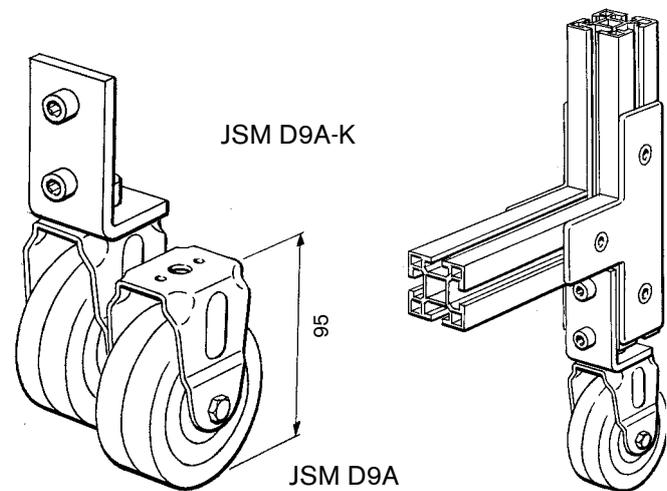

Guide roller for sliding door

Designation: JSM D9A
 JSM D9A-K - preassembled with angle bracket

Article numbers: 40-033-12 (JSM D9A)
 40-033-13 (JSM D9A-K)

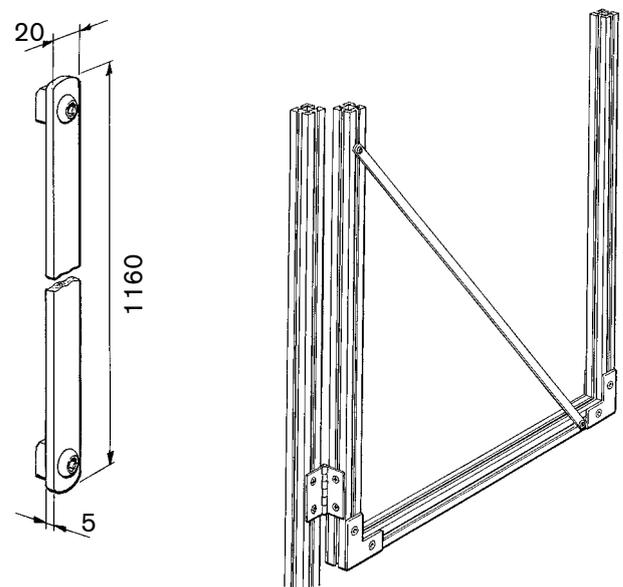

Diameter: 75 mm
 Max. load: 70 kg

Diagonal bar for door

Diagonal bar

Designation: JSM D14
 Article number: 40-033-28
 Preassembled with: Screws and Nuts
 Material: Natural anodized aluminium

Door Components

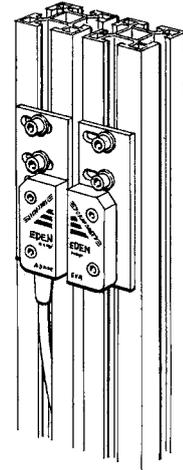

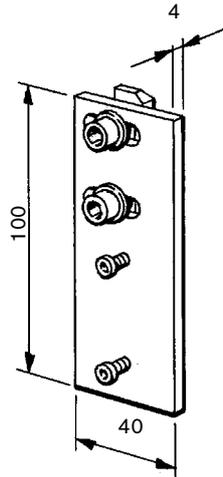

Fittings for switches and sensors

Fittings for Eden, adapted for sliding and conventional doors

Designation: JSM D4H
 Article number 40-033-36
 Preassembled with: Screws and Nuts
 Material: Aluminium

Note!

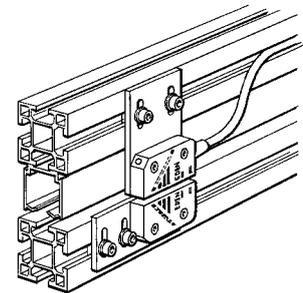

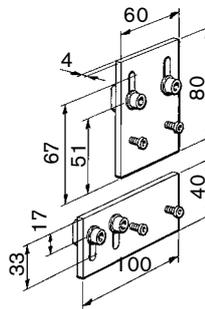

Two fittings is needed for a complete Eden.

Eden Fitting for sliding door (flush with fence)

Designation: JSM D4J
 Article number 42-020-40
 Preassembled with: Screws and Nuts
 Material: Aluminium

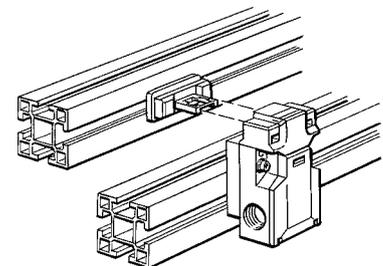

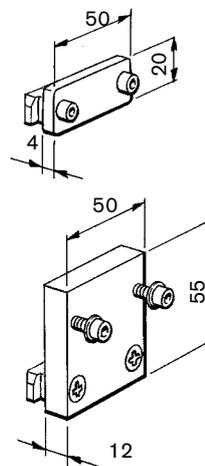

Note! One (1) JSM D4H and one (1) JSM D4J is needed for one (1) complete unit.

Fittings for JSNY5 Interlock Switches

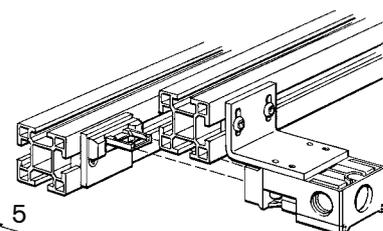

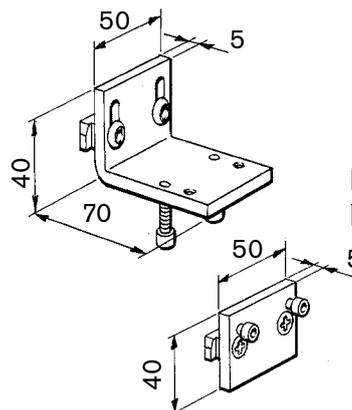

Conventional opening door Interlock Switch Fittings.

Designation: JSM D4A
 Article number: 40-033-09
 Preassembled with: Screws and Nuts
 Material: Zink Plated Steel

Conventional opening door Interlock Switch Fittings.

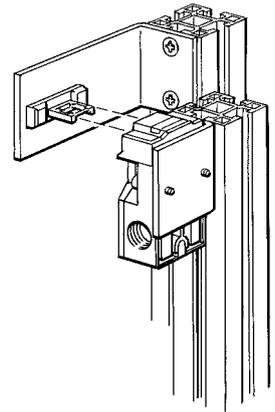

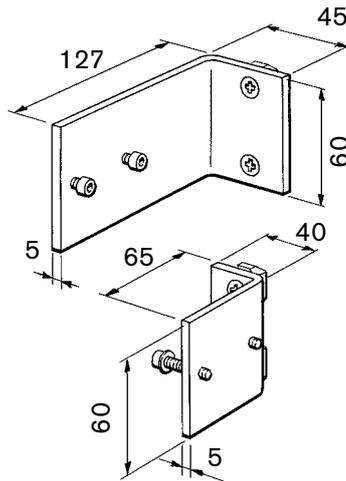

Designation: JSM D4AA
 Article number: 40-033-34
 Preassembled with: Screws and Nuts
 Material: Zink Plated Steel

Door Components

Sliding Door Interlock Switch Fittings

Designation: JSM D4B
 Article number: 40-033-10
 Preassembled with: Screws and Nuts
 Material: Zink Plated Steel

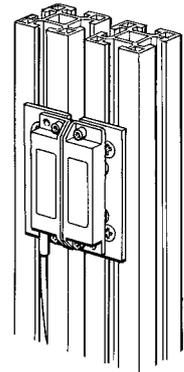

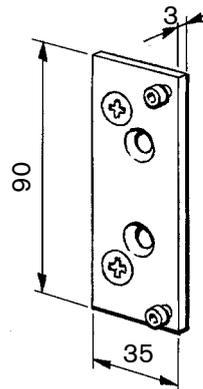

Fittings for Magnet Switches JSNY7

Conventional opening door Magnet Switch Fittings

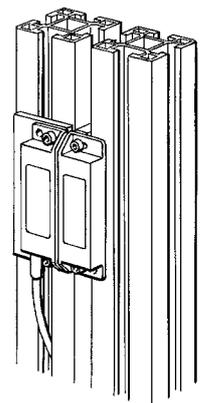

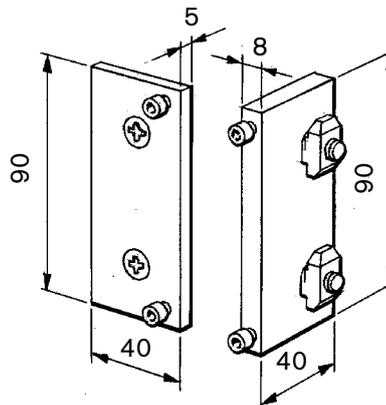

Designation: JSM D4E
 Article number: 40-033-18
 Preassembled with: Screws and Nuts
 Material: Aluminium

Note! Two fittings are needed for a complete JSNY7.

Sliding Door Magnet Switch Fittings

Designation: JSM D4G
 Article number: 40-033-33
 Preassembled with: Screws and Nuts
 Material: Aluminium

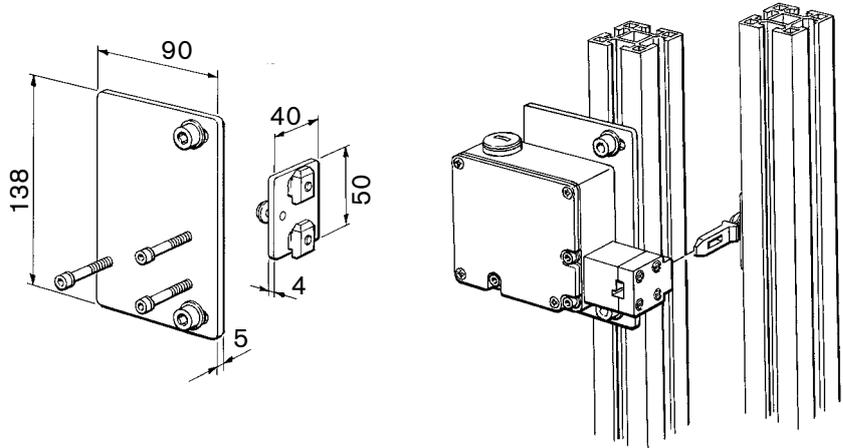

Door Components

Fittings for Interlock Switches JSNY8 and JSNY9

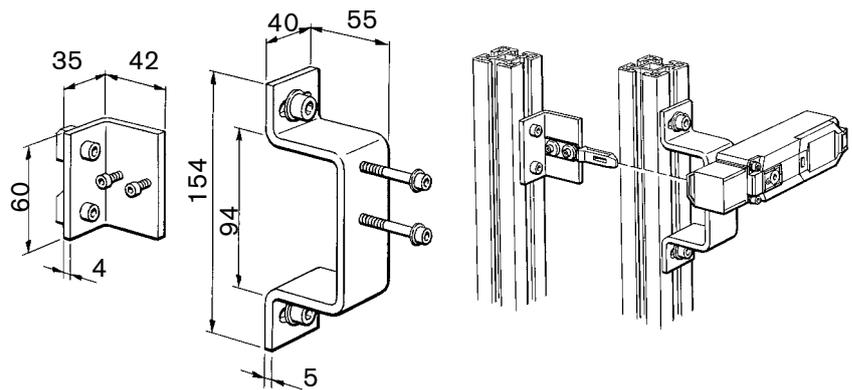

Sliding Door Interlock Switch for JSNY8 Fittings.

Designation: JSM D4D
 Article numbers: 40-033-17
 Preassembled with: Screws and Nuts
 Material: Zink Plated Steel

Conventional opening door Interlock Switch Fittings for JSNY9 and JSNY8

Designation: JSM D4C
 Article number: 40-033-16
 Preassembled with: Screws and Nuts
 Material: Zink Plated Steel

Sliding door Interlock Switch Fittings for JSNY9

Designation: JSM D4F
 Article number: 40-033-30
 Preassembled with: Screws and Nuts
 Material: Zink Plated Steel
